

Sergi Sanmartin Soria

Joaquim Vayreda 65, Girona, Spain · (+34) 644 487 100 · sergisaes@gmail.com · [linkedin.com/in/sergisamartin](https://www.linkedin.com/in/sergisamartin)

Profile

Final-year Computer Science and Engineering student at UPC (Barcelona) with professional experience building mobile apps in React Native and back-end services in Python. Comfortable working end-to-end, from production mobile apps to optimization tooling for industrial operations. Winner of HackUPC 2025; completed an international exchange semester at NTUST (Taipei).

Experience

Software Developer — Amphora Logistics

February 2026 – Present · Girona, Spain

- Worked on the company's mobile Warehouse Management System (WMS), contributing to the React Native front-end and the Python micro-services back-end on AWS (DynamoDB).
- Built a mobile app from scratch for the drivers covering the company's internal transport routes.
- Designed and implemented a reusable mobile design system in React Native to keep the UI consistent and speed up feature delivery.
- Worked with the operations team to turn real warehouse and transport workflows into app features.

Software Developer (Optimization & ERP Systems) — ACEBSA

June 2025 – September 2025 · Girona, Spain

- Built AI-based scheduling optimizers (Simulated Annealing and CP-SAT via Google OR-Tools) to improve production planning and resource allocation at the plant.
- Extended and maintained the company's ERP in PL/SQL and Oracle Forms Builder, fixing bottlenecks identified together with the operations and IT teams.
- Modelled real production constraints as optimization problems to reduce scheduling delays.

Sanitation Worker — Girona Neta

July 2024 – August 2024 · Girona, Spain

- Summer job balanced with academic commitments — built work ethic, resilience and dependability in a demanding physical environment.

Teaching Assistant — Aula Lliure Program, UPC

October 2023 – December 2024 · Barcelona, Spain

- Mentored Computer Engineering students in *Introduction to Computers* (IC) and *Computer Structure* (EC), running both theory and hands-on problem-solving sessions.
- Designed and adapted exercises tailored to different learning styles; helped dozens of students pass demanding low-level CS exams.

Web Development Intern — Steema Software

June 2023 – September 2023 · Girona, Spain

- Maintained and extended the company's JavaScript charting libraries, fixing bugs and adding small features in a Git/GitHub workflow.

Projects & Awards

HackUPC 2025 — Winner

- Built and shipped a mobile app for Vueling during the 36-hour hackathon, winning the challenge.

Education

Universitat Politècnica de Catalunya (UPC) — Barcelona, Spain

Bachelor's Degree in Computer Science and Engineering · Expected June 2026

National Taiwan University of Science and Technology (NTUST) — Taipei, Taiwan

Exchange Semester in Computer Science · September 2025 – January 2026

- Focused on robotics; co-authored a research paper submitted to IEEE.

Technical Skills

- **Languages:** JavaScript / TypeScript, Python, C++, Java, Kotlin, Ruby, C, R, MIPS
- **Mobile & Front-end:** React Native, design systems, OpenGL, Qt
- **Back-end & Frameworks:** Django, Ruby on Rails, Python micro-services
- **Cloud & Data:** AWS, DynamoDB, MySQL, Oracle PL/SQL
- **AI / Optimization:** Google OR-Tools (CP-SAT), Simulated Annealing, OpenMP parallelism
- **Practices:** Agile (Scrum, Kanban), Clean Architecture, CI/CD, code optimization, software testing
- **Tooling:** Git, GitHub, Linux, Windows

Languages

- **Catalan** — Native
- **Spanish** — Native
- **English** — B2

Additional

- Volunteer Preparation Course and active participation in volunteering activities.
- Coaching Techniques Course for academic mentoring.
